

Do you feel you are on too many medications?

Do you feel you see too many doctors?

Do you suffer from memory loss or falls?

Are you unhappy with your blood sugars or weight?

Do you feel alone or overwhelmed?

Jimmy Edmond, M.D.
PRIMARY CARE PHYSICIAN

Dr. Jimmy Edmond is a primary care physician for adults 18 years old and above. He completed a three year internship and residency program at the Johns Hopkins Sinai Hospital Program in Internal Medicine and a two year Clinical and Research Fellowship at the Johns Hopkins School of Medicine Division of Gerontology and Geriatric Medicine in 2000. Dr. Edmond is a caring physician dedicated to ensuring the best quality of life for all his patients.

Sylvie Lemire, APRN

Sylvie Lemire was born and raised in Montreal, Canada. Sylvie completed her Bachelor of Science in Nursing from Southern Adventist University in 1996. Sylvie obtained a Master's Degree in Nursing at the accredited South University in Tampa. She has served as a Primary Care Provider and Nurse Practitioner in Spring Hill, Florida for over six years. Sylvie holds a National Board Certification with the American Academy of Nurse Practitioners (AANP), and is an active member.

Aubrey Koch PA

Aubrey Koch was born and raised in Reading, Pennsylvania. She earned her Bachelor of Science degree in biology at Albright College in her hometown of Reading in 2016. Aubrey continued her education at Barry University in Florida, completing her Master of Clinical Medical Science degree. Aubrey is certified by the National Commission on Certification of Physician Assistants and is an active member of the Florida Academy of Physician Assistants.

GeriCare Center specializes in the unique health care needs faced by elderly and adult individuals. At GeriCare Center, we are one of the most trusted geriatric care providers in Florida. Dr. Jimmy Edmond, our Chief Medical Officer, is a Johns Hopkins-trained physician and has extensive experience serving patients in their 60s, 70s, and beyond.

GeriCare Center is committed to providing comprehensive health care plans that are tailored to each patient's unique needs. We also understand the importance of maintaining a high quality of life, and can provide individualized strategies to help our patients stay happy and active, even when dealing with a chronic diagnosis.

Our long-term care plans are designed to help patients manage chronic conditions that develop in the later stages of their lives such as:

- Diabetes
- Chronic obstructive pulmonary disorder (COPD)
- High blood pressure
- Memory disorders
- Osteoporosis

With this insight we can offer tailored geriatric medicine services to help adult and geriatric patients live their lives to the fullest. This also means that when a patient develops an unexpected injury or illness, he or she can make an appointment with a trusted provider who is already familiar with his or her medical history and health goals.
